NOTIFICATION

Samridhy Muvattupuzha Diocesan Social Service Society along with State Medicinal Plants Board, Kerala in implementing School Herbal Garden in the selected 50 Schools of Kottayam District in order to promote, cultivate, prevent and conserve the Medicinal plants. The objectives of the project are

1. To create awareness among new generation about tree culture through cultivation of medicinal plants.
2. Educate the new generation on conservation & cultivation and sustainable use of medicinal plants
3. To create a healthy and pleasant green atmosphere in schools compound through plant culture.
4. Ex-situ Conservation of endangered indigenous medicinal plants.
5. Best use of available land in school compound.

GUIDELINES FOR APPLYING

- > The school should have minimum 500 students
- > The school should have minimum 5 cents of land which is viable for garden
- > The school should have Eco Club/Nature Club
- > The school should have Compound wall
- > There should have a teacher coordinator for the programme
- > After the establishment of Herbal garden, the school should conserve the garden by their own
- > Samridhy will monitor and evaluate the programme for 5 years

The interested schools may send the above application in the following address:
